TGPCA Visited Centre of Science for Villages (CSV) Wardha

Students and Faculties of TGPCA visited Centre of Science for Villages (CSV) at Duttapur, Wardha on Feb 1, 2020 to study, learn and to get first hand information about various cost effective construction techniques developed by CSV. Development of Innovative building materials and construction techniques play very important and vital role in bridging the ever widening gap between demand and supply of low cost shelters in the country.

Dr. Soham Pandya, Secretary and Executive Director of CSV, Wardha conducted a workshop on Innovative Cost Effective sustainable construction technology developed by CSV using local materials and labours. The workshop was conducted after the tour of 'sanitation park' on Nagpur Road where various construction and sanitation techniques are demonstrated.

Development of Innovative building materials and construction techniques play very important and vital role in bridging the ever widening gap between demand and supply of low cost shelters in the country. Visit was well co-ordinated by Prof.Rohit Rathi (Course Co-ordinator of Architectural Design of 4th Sem) & Prof. Nitesh Jibhkate accompanied the students during visit.
