

## Tulsiramji Gaikwad Patil College of Architecture

Students of TGPCA actively participated in Nirmala event organised by Rotary club of Nagpur on 12th of September 2019 on the occasions of Ganesh visarjan at Futala lake. Nirmalaya basically is worship material like flowers garland, coconut shell, fruit, etc. which are used during the Ganesh festival for worship. Every year due to Ganapati Visarjan, lakes get pollute with tonnes of paper, plastic, flowers fruits, and cloth. 'Nirmalaya collection' Project enables devotees to recycle their votive offerings. The rotaractors were distributed in groups and then allotted the area where they have to collect nirmalaya form the devotee and tell them not do visarjan with nirmalya. With all the enthusiasm all the rotaractors collected the nirmalaya.
